CALDWELL, IDAHO

MENT ON SUBJECT.

And Asks Co-operation of all Who Are Concerned in Matter.

Under date of January 2 the Secd Assistant Postmaster General rote Postmuster Frank Welcome, this city, as follows:

"Sir:-No satisfactory proposal aving been received in this office nder the advertisement of Novemer 25, 1905, for service from July 1906, on the star route from Onario to Burns, Oregon, another adertisement has this day been issued r the service in question. The atter is brought to your attention ith instructions that you endeavor bave a reasonable and satisfacery bid submitted for the service advertised, and it is desired that proposal shall be submitted from bonn fide resident "on or near the oute." as contemplated by the rms of the advertisement. The Department is endeavoring to proide an expedited service over the tree plantations. turns-Ontario route and it is eneavoring to improve the mail facilies for the patrons of Burns and he several offices in Harney couny, by affording increased frequency e improving of the postal facilis to the territory served by these utes, and an earnest effort should made to secure a very satisfac-

rtised." The second advertisement states \$20,000 will be required with pleasure it affords. ch bid. the proposition that the association has already 600 members. It is in each of the towns and spread the idea throughout the entire Pan-

The definite objects of the club They flave Been Persistent and Urged Work are to find out what kinds of trees are best adapted to the region and how they shall be planted, and to obtain the necessary material in the most advantageous way. The forest service has agreed to send a competent man to advise the people on all these points, and when definite plans for planting shall have been made the individual members will combine and purchase their stock in large quantities from the nursery men. The club idea has been followed

for the furtherance of many other projects, but this is perhaps the first time that it has been brought to the advancement of tree planting. As an encouragement to other sections to work in the same way, the forest service at Washington directly offers to furnish expert advice whenever a community shall organize a club of this kind

There is considerable area in Eastern Oregon which will receive material additions later from irrigation, where the necessity for tree planting will be readily appreciat.

#### "EVERY LITTLE BIT HELPS."

The Portland papers announce that still another railroad is headed. for Portland from the east. A press dispatch from Denver is published in which it is stated that David H. Moffatt, who is building a railroad through Northern Colorado and Utah to Salt Lake, has made the following announcement:

"I intend to extend the Denyer, Northwestern & Pacific Railroad to Portland, Or. I want to get up into that section for the timber as well as for an outlet to the Pacific Ocean. I will begin this extension when I am through to Utab."

Later Mr. Moffatt modified this statement by putting in the provision that such were his plans if the other roads invaded his territory, protect the grass upon the public which is threatened.

It is quite evident from the tone of the Portland papers that they hope, and in fact, expect Moffatt's the range by the owners of large MERLS AT ALL HOURS
